- Global recalculation program of benefit amounts paid by employer and employee
- Client can manually recalculate benefit amounts paid for individual employees
- Benefit amounts calculated by FTE
- Provides each employee with on-line lookup of their benefits and costs
- Provides automatic rollover of employee benefit records from one year to the next
- Integrated with QSS/OASIS Payroll
- Benefit Information Listing Report
- Billing Report
- Dependents Report

Benefit Management Integration

- Position Control
- Payroll
- Human Resource

Customer Benefits

The Benefits Management system assists staff in reporting benefit plans, tracking dependent-eligibility and in calculating correct employer/employee paid benefit amounts.

This system also reduces the amount of labor required in processing, calculating and rolling over benefit packages and amounts from year to year.

Summary

The QSS/OASIS Benefits Management system is designed to meet the specific needs of school districts and county offices of education. A tight integration with the other elements of the QSS/OASIS Financial software ensures accurate and timely results.
